Consultation: The Proposed Withdrawal of Subsidised Bus Services in Worcestershire

worcestershire county council

Background

You will probably have read in newspapers, heard on the radio or watched on television that councils and all public services are facing a severe reduction in funding as Central Government deals with the national debt. Every year Worcestershire County Council faces tough decisions about where it spends your money and is currently needing to save £30 million per year.

Worcestershire County Council has adopted a proactive approach so that a considered plan can be drawn up of how to address this challenge.

The proposal

Worcestershire County Council is proposing to save £3 million from the £3 million that is currently spent towards subsidising bus journeys in Worcestershire. This reduction in spending is likely to lead to the withdrawal of subsidised bus services.

Worcestershire County Council currently supports the provision of buses across the County. This is in the fulfilment of legal functions (e.g. home to school transport) and to enable residents to travel on services that are not provided by commercial bus operators. These bus services are in urban and rural areas and are used for journeys to work, to school, essential shopping trips, to reach medical services and for leisure/sporting activities.

Currently approximately 80% of bus passenger journeys are provided commercially by the private sector and others, approximately 20% are subsidised by Worcestershire County Council.

Consultation to date

Spring 2010

Residents were asked to prioritise all services provided by Worcestershire County Council over several rounds of public consultation. Results showed that subsidising bus services ranked as less of a priority behind such services as adult social care, children's social care and highways maintenance.

Autumn 2010 / Spring 2011

A further consultation was then undertaken, specifically related to reducing subsidised bus services.

This showed that residents preferred to see a reduction in the level of service rather than a complete withdrawal of specific routes.

Changes to services were implemented in 2011 and a saving of £2.5 million of tax payers money was made.

Current Situation

Due to the ongoing financial challenges faced by Worcestershire County Council we now need to explore how a further £3 million saving can be achieved.

Key facts

- Worcestershire County Council Bus expenditure is £3 million per annum
- Number of Services Supported is 97
- Number of Passengers Journeys on supported services is 3 million per annum
- The current minimum subsidy is £0.10 per passenger Journey
- The current maximum subsidy is £8.24 per passenger Journey
- The current overall average subsidy is £1.04 per passenger journey
