Comments	The Parish Council have no objection to the replacement of a small shed/barn with a new larger extension. We note the new extension design will match the existing larger structure which is already insitu, and we rely on the appointed planning officer to ensure similar design and materials are utilised. The Parish Councils view is that it is a commercial farm and we should support the enterprise, provided it does not detrimentally impart on other residence quiet enjoyment or the wider community. However, the Parish Council would like to request the planning officer considers that this full planning consent for the extension is tied to Agricultural use.
