Comments	The Parish Council has no objection in principle to this application. However in Birlingham?s Village Design Statement which was adopted as a Local Information Source by Wychavon Council?s Executive Board in February 2018, it is stated under Guidelines for Development that ?Alterations to existing buildings should respect the original design or improve its contribution to the character of the parish?. We therefore understand that the planning officer will wish to consider the impact of the proposed orangery on the wider appearance of the listed 18th century property with later 19th and 21st century extensions.
